About SIEC USA ~Respecting Tradition~

SIEC-ISBE is the premiere global professional association for business educators. The US chapter was chartered in 1947 and has a rich history of providing unparalleled professional development and networking opportunities to members. The US chapter contracted years ago with another nonprofit organization to manage administrative tasks, and that arrangement ended December 31, 2020.

The new, revitalized US chapter launched Jan 1, 2021 under the name SIEC-USA, offering significantly reduced membership dues, expanded national and international benefits, and improved communications and networking. We remain

dedicated to professional development and networking, supporting the vital link between business and business educators nationally and around the world.

SIEC-USA remains the premiere national professional association for business educators in the US, joining a global network of professionals in SIEC-ISBE.
